Index to Memory Lane issues 96-130

INTRODUCTION

This index allows the reader to find all the references to any musician, band, vocalist, composer and other important figures of popular music in the text of Memory Lane issues 96-130. A photograph index is also included.

The Name Index uses the same format as the previously published indexes for issues 1-65 and 66-95 (still available at this time of writing). These indexes do not include songs, shows, films, theatres, hotels or other places nor do they include references to bands and personnel listed in record reviews.

In the index a name will be followed by issue numbers (in brackets) and page numbers, for example:

Allen, Nat (113)15,19 (118)10-12

The underlining of page numbers means a full article is devoted to that person or band.

Whenever possible I have indicated that a name is in fact a pseudonym, for example:

Gordon, Jack (pseud) (122)35 (127)38

The list of references for many popular personalities and bands is often large and in only a few cases was it possible to divide the entries into career stages.

Readers interested in films featuring vocalists or bands should look in the name index under 'Films'.

The Name Index is followed by a Photograph Index, pages 35-38, which includes any personnel listed in group photographs.

Permission was gratefully received, from EMI and from Bowly enthusiast Mike Hart, for use of some of the material in the illustrations.

In a project of this magnitude there will undoubtedly be errors and omissions and I shall be grateful to readers who inform me of any.
